Saturday August 18

Fast to piece of ground ice off
Cyprus Island.
Light variable winds and calm. Cloudy
and clear alternately all day and saw
Saw one whale blowing and came
near striking but had no wind.
at 8 A. M. got under way and beat
N. E. eastward along the land, passed
Cape Baker at 9.30 P. M. about.
Ice in sight all day but about
five miles off a large body of water
Ice small and very much broken
Find the S.S. in sight except the Bay ice
Bar 29.74 Th. 36

Sunday August 19th

Fast to ground ice and under steam
came to heavy ice and had to
work in and out to thin pathways
we came along in clear water
Light variable and easterly winds
Hove to and sent out Clear and
Cloudy ~~Island~~ Islands.
and ~~Explore~~ Return Kept and came in
to Norway Island and tied up
to the ground ice
Bar 29.90 Th 38
Find the S.S. in except the Bay ice and
S. Channel

Monday August 15th 1904
left Midway Islands and steamed to Cross Island and passed Lysan Reef and Flapman island and Barren Island.
Light variable winds and Calm Clear and Cooley a very fine day.
The Bengal got ashore coming around Midway Island this A.M. but got off all right.
The pack is in sight from Cross island to Camden Bay with clear water and land with lots of ground ice off the Reef. Very little ground ice in Camden Bay. Saw some natives and got some Deer. The Herman is the only S.S that is in sight at this time.
Bar. 29.99 Th. 40

Tuesday August 16th
Under steam passed Waring Point Griffin and Martin Point. Lots of heavy ground ice along the land from Waring Point towards Herschel Island but no pack in sight.
Arrived at Herschel Island at 3.30 P.M. and anchored.
Report the S.S. Leaving Lee on the 13th & 14 Bowers on the 20th
Natives have seen a whale close to the Coast Report having a mild winter & plenty of Deer.
Left at 10 P.M. bound east
Got some Deer meat.
Bar. 30.08 Th 44

8th Number arrived at Point Barrow Lots of Ice in sight. Left Point B. Left the ship & Point Barrow 1911. Landed at Kaktovik on the arrival

Wednesday Aug. 17, 1904

Arctic steamer passed Cape Dalhousie and came to an anchor at Baillie Island when we found the Bearhead Baychal and Banaya.
Report baychal with oil and Bearhead with three whales all well.
Light winds & mostly part of the day but fair of day clear. Plenty of clothing ice in Liverpool Bay.
Ice clear in at Baillie Island.
Banaya in the Lagoon at work on an old hole having struck a piece of ice causing a leak can repair all right for the season will repair again in warm quarters. Native Schooner Penelope in sight. Ships have been over near Boothia Island but found the ice very heavy.

Bar. 29.99 Th 36

Thursday August 18th

Arctic steamer passed Cape Dalhousie and came to an anchor at Baillie Island when we found the Bearhead Baychal and Banaya.
Report baychal with oil and Bearhead with three whales all well.
Light winds & mostly part of the day but fair of day clear. Plenty of clothing ice in Liverpool Bay.
Ice clear in at Baillie Island.
